PROFILE

MSc Artificial Intelligence for Business student at NEOMA Business School with nearly 3 years at Accenture in business analytics and operational support, now applying that foundation to B2B operations, logistics, and supply chain at Sensaterra.

Skilled in process optimization, stakeholder coordination, forecasting, and KPI reporting. Looking to transition into a CDI, CDD, or internship from March 2027 — open to relocation across France and Europe.

EDUCATION

MSc in Artificial Intelligence for Business | NEOMA Business School, France | *Oct 2025 – Aug 2026*

B.Tech in Mechanical Engineering | G. Pulla Reddy Engineering College, India | *Jul 2018 – Jul 2022*

PROFESSIONAL EXPERIENCE

Operations & Logistics Intern | Sensaterra, Paris, France | *Aug 2026 – Feb 2027*

- Managed end-to-end operations for B2B client accounts, supporting onboarding, contract activation, and service delivery.
- Coordinated logistics, inventory management, warehouse operations, and last-mile deliveries to ensure operational efficiency.
- Analyzed supply chain and operational processes, identifying improvements to optimize workflows and client satisfaction.
- Collaborated with cross-functional teams (Sales, Customer Success, Procurement, and Logistics) to ensure seamless execution of operations.
- Developed and monitored operational KPIs, dashboards, and process documentation (SOPs) to support data-driven decision-making and business scaling.

Packaged App Development Analyst | Accenture, Hyderabad, India | *Dec 2024 – Sep 2025*

- Developed 12+ business performance dashboards and reports enabling data-driven decision-making across multiple business functions.
- Supported forecasting and scenario planning across business cycles using BOARD Planning solutions.
- Improved reporting accuracy by 20% through data validation, reconciliation, and process optimization, while coordinating with cross-functional stakeholders.

Associate Software Engineer | Accenture, Hyderabad, India | *Oct 2022 – Nov 2024*

- Built and maintained 10+ KPI dashboards used by 100+ stakeholders to monitor operational and business performance.
- Ensured 99% data availability through proactive monitoring, issue management, and workflow optimization.
- Coordinated with cross-functional teams to translate business requirements into operational reporting and process-improvement solutions.

PROJECTS

AI Personal Fitness & Diet Planner
Built an AI-powered recommendation system (Python, Streamlit, Google Gemini) applying prompt engineering to generate personalized plans.

E-Commerce & Airline Performance Analytics
Analyzed sales, delivery, and 100K+ flight records (Power BI, SQL, Excel, Tableau) to surface operational inefficiencies and improvement recommendations.

SKILLS

Operations & Supply Chain: Inventory Planning, Logistics Coordination, Order Fulfillment, KPI Monitoring, Forecasting, Process Improvement, Stakeholder Management

Analytics & Reporting: Power BI, Tableau, SQL, Advanced Excel, Dashboard Development, Business Intelligence

AI & Digital: Generative AI, Prompt Engineering, Python (Pandas), Automation & Digitalization

Enterprise Tools: SAP BI/BW, Azure Cloud, ServiceNow, Microsoft Office Suite, Teams, SharePoint

Professional Skills: Business Communication, Analytical Thinking, Problem Solving, Cross-functional Collaboration
